

Directions: Upcycled phone holder by Sustainably Amber

(Works best with thin cardboard, like a cereal box)

1. Cut on all dotted lines.
2. Crease each solid fold line
3. Aline the top of paper to fold line three.
4. Now fold again so fold line one lays flat against the bottom portion by the tabs. It will form a triangle at the side. (Fold line two be the top of the triangle, one is in the front and three in the back.)
5. Make sure the three bottom tabs are slightly raised.
6. Insert the two rounded tabs into the cuts.
7. Rest your phone on the bottom long tab.
